

PROGRAMME SPECIFICATION

1. Applies to cohort commencing in:	2024			
2. Degree Granting Body	University of London			
3. Awarding institution	The Royal Veterinary College			
4. Teaching institution	The Royal Veterinary College			
5. Programme accredited by	Royal Society of Biology			
6. Name and title	Bachelor of Science in Animal Biology,			
	Behaviour, Welfare and Ethics (BSc ABBWE)			
	Bachelor of Science in Animal Biology, Behaviour, Welfare and Ethics (BSc ABBWE) with Placement Year (BSc ABBWE PY)			
7. Intermediate and Subsidiary Award(s)	Cert HE Biological Sciences Dip HE Biological Sciences			
8. Course Management Team	Course Director: Dr Isabel Orriss &			
	Dr Caroline Pellet-Many Pathway Leader: Dr Charlotte Burn Year 1 Leader: Dr Donald Palmer Year 2 Leader: Dr Abir Mukherjee Placement Year Leader (if applicable): Dr Claire Russell Year 3 Leader: Dr Matthew Gage			
9. Level of Final Award	Level 6			
	See: Office for Students (OfS) Sector-recognised			
	standards			
10. Date of First Intake	September 2015 September 2022 with Placement Year			
11. Frequency of Intake	Annually in September			
12. Duration and Mode(s) of Study	Three years, full time.			
	Four years, full-time with Placement Year			
	A mix of teaching approaches including onsite and digital, synchronous and asynchronous, class and self-paced, expert-led, group and individual.			
13. Registration Period (must be in line	Full Time			
with the General Regulations for Study	Minimum Maximum			
and Award)	2 Academic years 5 Academic years			
	3 Academic Years 6 Academic Years			
	with Placement Year with Placement Year			
14. Timing of Examination Board meetings	Annually in July and September			
15. Date of Last Periodic Review	2020			

16. Date of Next Periodic Review	2025
17. Language of study and assessment	English
18. Entry Requirements	https://www.rvc.ac.uk/study/undergraduate/bsc -animal-behaviour-and-welfare#tab-entry- requirements Progression to the Placement Year (if applicable) Written offer of a Placement from a placement provider. The proposed placement project must address the Learning Outcomes. The placement provider must satisfactorily complete an 'RVC Collaborative Partners' form. The student must attend a Placement
	Health and Safety Induction at the RVC. Travel Risk Assessments must be performed if the placement is abroad. A Placement Supervisor must be named, and their details provided.
19. UCAS code	D390 D391 with Placement Year
20. HECoS Code	100345
21. Relevant QAA subject benchmark	Biosciences
22 Other External Deference Deinte	

22. Other External Reference Points

Regulations of the University of London

Office for Students (OfS) Sector-recognised standards

Quality Assurance Agency, The Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies, 2014

Credit Level Descriptors for Higher Education, SEEC

Royal Society of Biology Degree Accreditation Criteria

23. Aims of programme

BSc ABBWE

- To offer a high quality course incorporating extensive research experience, in which students are challenged by, and stimulated to challenge, accepted wisdom in all fields of biological science;
- To prepare graduates for a PhD or careers in academic and commercial research, and in a range of graduate careers that involve the management and welfare of companion, farm, laboratory, working and wild animals.

BSc ABBWE plus Placement Year

- To prepare students for the workplace through development of employability skills and understanding of the sector and organisation in which they are placed.
- To increase student employability by providing work and research experience with a placement provider.
- To provide students with a framework for lifelong learning.
- To provide opportunity to develop research skills, including synthesis of information, critical analysis and an appreciation of factors that contribute to uncertainties.

24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes. Learning outcomes should be specified for all intermediate awards as well as for the terminal award.

	ard.	
	successful completion of the Bachelor Science course, students will:	Modules in which each learning outcome will be developed and assessed:
•	Have a detailed understanding of cell biology, physiology, and genetics	Year 1 modules
•	Have a detailed understanding of the basis of infectious & non-communicable diseases and the broader applications for disease control	Year 2 modules
•	Display practical skills including the ability to design and execute experiments, analyse and interpret the resultant data, and present conclusions in a variety of formats.	Year 2 Project
•	Be able to scientifically measure, explain, and evaluate animal behaviour and welfare	Projects; Introduction to Animal Behaviour, Welfare and Ethics Science of Animal Welfare Animal Behaviour and Cognition Applied Animal Welfare
•	Be able to debate and analyse the political, social, legal and economic context of animal welfare	Projects Introduction to Animal Behaviour, Welfare and Ethics Applied Animal Welfare Animals and Human Society
•	Have developed the ability to access appropriate information, make methodical observations on the normal and abnormal functioning of biological systems, discriminate between important and relatively unimportant information and observations, reflect on information and observations, and solve problems, and discuss uncertainty in relation to scientific "facts", and balance different schools of thought.	Projects
•	Develop independent and lifelong learning skills to promote their own personal and professional development	Tutorials & Skills Workshops (across all modules)
•	Develop important employability skills including: communication, teamwork, personal management and career planning, effective learning, problem- solving, digital literacy, and numeracy.	Across all modules, with particular emphasis in projects and tutorials
•	Act with integrity, be honest, fair and compassionate in all their work. Maintain high ethical principles in relation to professional dealings, the use of information and experimentation in humans and animals.	Projects

Have an appreciation of health and safety appropriate to laboratory and field work, including completion and understanding of risk assessment and COSHH documents.	Projects			
On successful completion of the placement year, students will additionally be able to:				
Employ models of reflection to explore and critically evaluate how these influence own learning, personal and professional planning; providing recommendations and action plan to improve	Professionalism and Project modules			
Demonstrate experience within the biological sciences that is relevant to their degree	Professionalism and Project modules			
• Demonstrate an appreciation of the sector in which the student is working, a broad knowledge of the field, and their role within it	Professionalism and Project modules			
Devise, interrogate and sustain arguments using scholarly sources and the accurate deployment of established techniques of analysis and enquiry within one topic	Professionalism and Project modules			
Demonstrate an appreciation of uncertainties and limits of knowledge	Professionalism and Project modules			
25. Teaching/learning methods	Approximate total number of hours per week over X many weeks?			
Lectures	8 - 10 hours per week			
Practical / Directed Learning sessions	8 - 10 hours per week			
Tutorials & self-directed Learning	5 hours per week			
Placement Year	35 hours per week			
26. Assessment methods	Percentage of total assessment load			
Coursework	22% (20% for Placement Year)			
Written Exams	45% (40% for Placement Year)			
Projects	33% (40% for Placement Year)			
27. Feedback				
question and answer sessions, feedback to the feedback to individual students about exam an	al coursework, online quizzes with answers, group e year group about exam and ICA performance, d ICA performance (in one-to-one tutorials). m lecturers and tutors as needed during all small			
28. Work Placement Requirements or Oppo	rtunities Yes, if doing the Placement Year a Level 6	ıt		
29. Student Support	http://www.rvc.ac.uk/study/support- for-students	=		
30. Assessment Assessment and Award Regulations				

https://www.rvc.ac.uk/about/the-rvc/academic-quality-regulations-procedures

31. Programme structures and requirements, levels, modules, credits and awards NB: Students planning more than a Stage ahead should be aware that the College will not deliver any module or part of a programme if circumstances have changed to threaten its quality or viability. Such offerings could change after a student has started the course. However, the College will always offer alternatives that will be of equal cost in both fees and add-on expenses to the student and of equal academic value.

Stage 1 (Year One) Credit and Awards	Details
Total Credit to be studied at this stage	120 at Level 4
There are no optional modules at this stage	
Award available for completion of the Stage	Certificate in Higher Education Biological Sciences

Stage 1 (Year One) Compulsory Studies

Year	Term	Delivery Institution	Module Code	Module Title		Level	Credit Value	Status for Award	Prerequisites
1	1	RVC		Biology of the Cell		4	15	Compulsory	None
1	1	RVC		Inheritance, Genes and Evolution		4	15	Compulsory	None
1	1	RVC		Developmental Biology		4	15	Compulsory	None
1	2	RVC		The Moving Animal		4	15	Compulsory	None
1	2	RVC		Integrated Physiology		4	15	Compulsory	None
